

Police Warning

**You wouldn't share your
bank pin so don't share
your OTP code!**

**Your OTP code is to approve a login to an
online account.. so keep them private!**

Don't share OTP Codes

A One-Time Passcode (OTP) is a passcode that is only valid for a single login session or transaction. OTPs can be used as an extra verification step in addition to your login credentials. This helps to confirm this is me, and I approve this login to my account.
