

On Tuesday 28th and Wednesday 29th March, the majority of year 5 and 6 children took part in the L.E.A.D STEM trip held at Nottingham Forest Football Club. Over the course of the day, children completed tasks which encouraged them to use science, technology, engineering and mathematical skills. The workshops required children to build:

- A buggy which travelled the furthest using elastic bands to propel forward.
- The longest duration roller coaster track for a marble.
- The tallest tower to hold the Helicopter (Block of wood)
