# Online safety

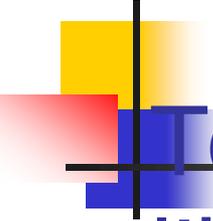

How safe are you?

---

Isn't the internet amazing? It allows you to see more, learn more and have lots of fun.

To help you enjoy it safely, we'd like you to think about the slogan

**'Click Clever, Click Safe'.**

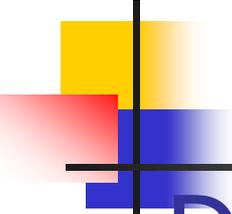

It's just three simple things we want you to remember, to help keep you safe when you go to your favourite websites each day.

Do you use social  
networking sites?

---

Snapchat,  
Instagram,  
Facebook ?

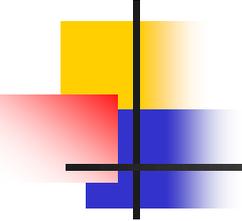

# Did you know it is illegal to have a Facebook account if you are not 13 yet?

- If you have got a Facebook account.. you lied about your age when you set it up.
- If your parents set it up for you, then it is their job to supervise you at all times when you are using your account.

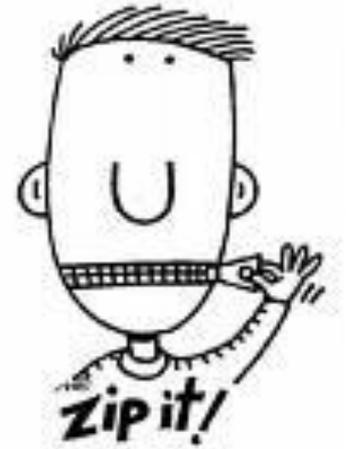

# RULE NUMBER..

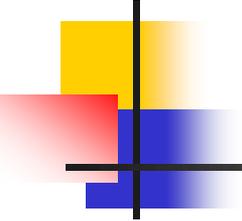

# ZIP IT

---

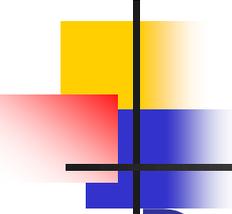

Keep your personal stuff private  
and  
think about what you say and do  
online.

---

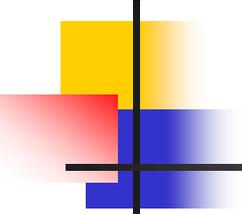

Remember that people online may not be who they say they are. Online friends are still strangers even if you have been talking to them for a long time.

---

Don't share personal information online including your full name, photos, addresses, school information, telephone numbers and places you like to spend time. Make sure you have set privacy settings to restrict access to personal information.

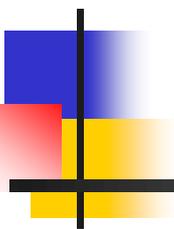

---

Always use a nick-name instead  
of your real name.

Use an avatar instead of your  
real picture.

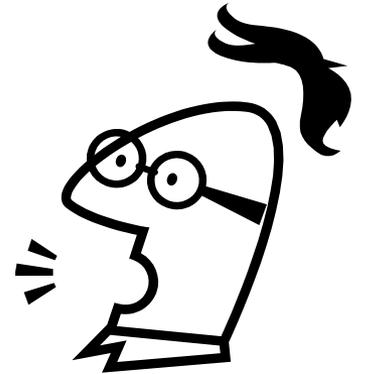

# **DON'T GIVE PEOPLE YOUR PASSWORD!**

---

Change your password regularly,  
just in case somebody guesses it  
and begins to access your account.

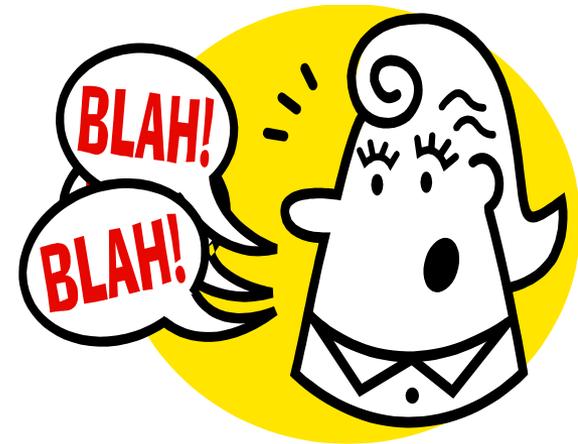

# Facebook friends

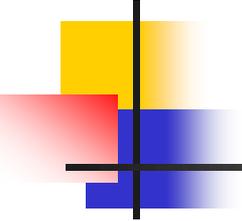

If you or your parents have facebook accounts, sending friend requests and messages to members of school staff is

**NOT ALLOWED**

We have a school rule that we have to ignore them.

We like to talk to you... but we can talk at school just as well.

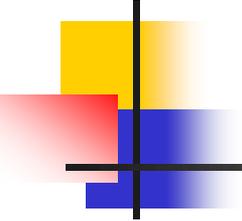

Rule number....

---

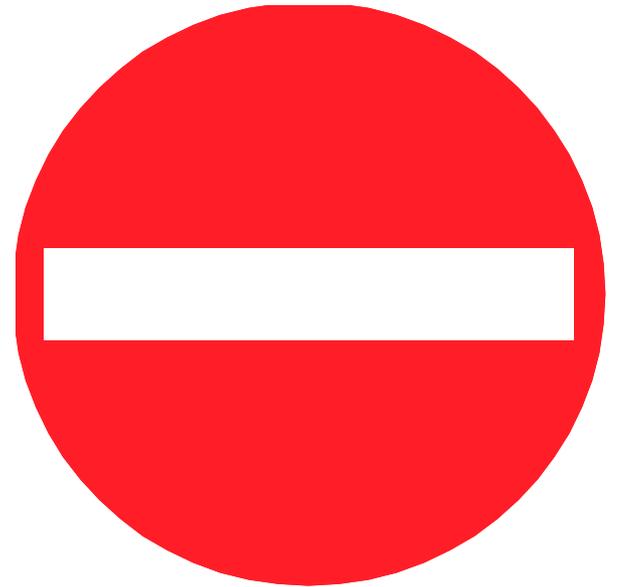

2

# BLOCK IT

---

Block people who send nasty messages and don't open unknown links and attachments.

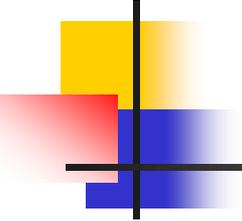

Always delete emails from people you don't know, and don't open attachments from people you don't know. They might be nasty or have a virus that can stop your computer working.

If someone is mean or sends nasty messages online, block them.

Cyber bullying is very real and very upsetting... it is no different to usual bullying.

---

That rule applies to your mobile phone and X-box live too.

Anywhere you have access to the internet, whilst unsupervised, can have these problems.

# Do you have a mobile phone?

---

Mobile phones are making it much easier to communicate in lots of different ways.

Phones are a great way of communicating with your friends.....

But DON'T get caught up in nasty arguments.

It's so easy to say something online that you wouldn't say to someone's face because you know it would hurt their feelings.

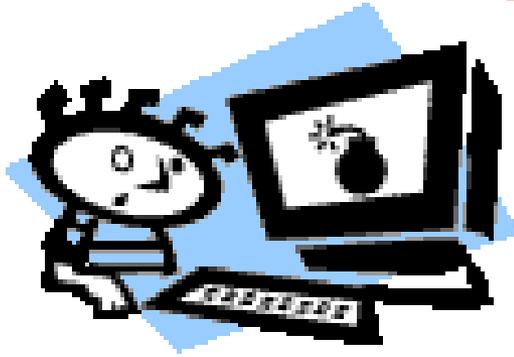

Don't hide behind your mobile phone or computer – words on a screen can be as hurtful as the words that come from your mouth.

# Rule number....

# FLAG IT

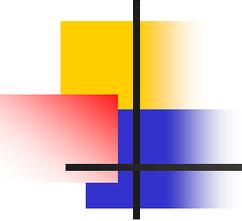

---

Flag up with someone you trust if anything upsets you or if someone asks to meet you offline.

If a friend you have made online asks to meet you in the offline world, talk to your parents or a trusted adult about it.

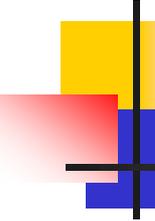

You should never meet up with someone you have met online without an adult going with you because it is dangerous.

---

If someone you know is being nasty to someone online, speak to a parent or a trusted adult about it.

If you want to talk to someone  
else

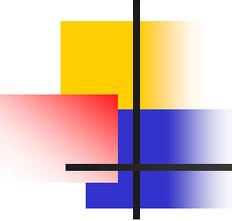

---

you can call

'Childline' on 0800 1111

or visit

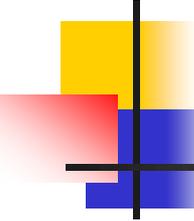

[www.ceop.police.uk/report](http://www.ceop.police.uk/report)

A great website to go on about  
internet safety is..

---

[thinkuknow.co.uk](http://thinkuknow.co.uk)

Being safe is about being smart,  
making the right choices and  
knowing what to do when you  
just don't feel happy about  
something.

And remember... there are lots of other ways to have fun!
